REVENUE DEPARTMENT.

(REVENUE.)

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 3rd January 1881.

READ—

Letter No. 526 of the 20th December 1880 from the Deputy Commissioner of the Chitaldroog District.

Letter No. 456 of the 22nd December 1880 from the Deputy Commissioner of the Shimoga District.

No. 5616-23—R. 985, DATED BANGALORE, 3RD JANUARY 1881.

ORDER THEREON.—In the Districts of Chitaldroog, Kadur and Shimoga the toddy farms have hitherto been disposed of talukwar. In the first mentioned District, the toddy revenue has fallen off considerably since the famine, and as the taluks are large and poor, it will not be advantageous for a single contractor to take up the toddy farm of the whole District. In the other two Districts, the consumption of toddy is quite insignificant except in a few taluks. The Chief Commissioner therefore directs that the existing system of selling the toddy farm by taluks or groups of taluks be continued in these Districts, and in such cases it will be more convenient to dispose of the farm by public auction than by the system of tenders. In these cases, it may also be desirable to allow the contractors to furnish a portion of the security in immovable property, as cash security is not easily found by these smaller contractors.

2. A draft notification with the preliminary part revised as above is forwarded, and the Deputy Commissioners of the above Districts are requested to submit the same after duly filling up the dates of auction and other particulars for publication in the Gazette. The dates for the sale of the toddy and arrack farms may be conveniently fixed after the Census, say 22nd February for Chitaldroog and Kadur and 25th for Shimoga.

3. The prevailing prices in Chitaldroog are reported to be 6 pie per seer in villages, and 8 pie in taluk kasbas, and in the Shimoga District they range generally from 6 pie to 0—1—3, whilst in the Shimoga town and at Shikarpur the maximum rate is reported to be as high as 0—1—6 and 2 annas respectively, probably owing to the difficulty of getting toddy. It might suffice to provide a minimum of 6 pie and a maximum of 1 anna for villages and taluk kasbas without distinction, a higher maximum being provided for those taluks where the prices are high. A separate rate for the supply of toddy to bakers does not seem to be required in these Districts.

4. Personal security is attended with inconvenience, and will not be required if security in cash or in unencumbered immovable property is furnished as provided for in the draft advertisement.

5. The Deputy Commissioner of Chitaldroog proposes that the khists for the dry months from December to May should be fixed at double the amount of those for the remaining months. Such unequal khists are attended with inconvenience, and should be provided for only in those taluks where they are absolutely required.

6. The 'Conditions' in the draft advertisement have also been slightly altered for all the Districts for the purpose of (1) reserving to the Deputy Commissioner power to extend the hours of sale on occasions of festivals if thought advisable; (2) placing the manufacture of jaggery under such restrictions and conditions as may be required, and (3) restricting the cutting and appropriation of date leaves by the contractor.

7. Section VIII of the 'Conditions' reserves to the Governmen t the power of arranging for the supply of toddy from one District or taluk to another. In those cases in which toddy has to be brought from places beyond the Province, the contractors should make their own arrangements for obtaining their supply from such places.

8. In submitting the tenders for final confirmation, full information should be given in regard to the past revenue, to enable the Chief Commissioner to judge of the adequacy of the offers received.

C. RANGACHARLU,
Revenue Secretary.

To—The Deputy Commissioners of Districts.

DRAFT NOTIFICATION.

The *January* 1881.

The toddy farm or the exclusive privilege of selling toddy in the District of from 1st April 1881 to 31st March 1884 will be sold by public auction by the Deputy Commissioner of at his Office at 12 o'clock noon on the 1881, separately for each taluk or groups of taluks, subject to the conditions hereinafter set forth.

2. The farm in each case will be put up to auction at an upset annual rent which will be notified at the time, and will be knocked down to the highest bidder, subject to confirmation by the Chief Commissioner, who reserves to himself the power of rejecting the highest or any bid without assigning any reason.

3. Parties intending to bid must attend either in person or by duly accredited agents, and no person will be permitted to bid until he has deposited a sum equal to 5 per cent of the upset annual rent fixed. The deposits of all unsuccessful bidders will be returned to them at the close of the sale.

4. The highest bidder whose bid is recommended for confirmation by the Chief Commissioner will be required to deposit at once a sum equal to one-twelfth of the annual rent engaged for, inclusive of the deposit already made by him. On the decision of the Chief Commissioner being announced, he will be required within eight days of such announcement, to deposit with the Deputy Commissioner inclusive of the previous deposits, a total sum equal to one-fourth of the annual rent engaged for, either in cash or in Government securities duly endorsed, as security for the due fulfilment of the contract. Or he may furnish one-half of the security above required in cash or in Government securities, and the remaining half in immovable property of value equal to double the amount, free of all claims and encumbrances. He shall further execute an agreement in the usual form on proper stamp, binding himself to conform to the conditions herein set forth.

5. If he fails to furnish the deposits required in the preceding para, or refuses to execute the agreement required, any deposits already made will be forfeited to Government, and the farm re-sold or otherwise disposed of, any losses resulting from such resale or disposal of the farm being recovered from him by attachment and sale of his property under the rules in force for the recovery of arrears of land revenue.

Conditions.

I. The annual contract amount shall be paid by equal monthly instalments, together with the prescribed local cess of one anna on every rupee, computed on such contract amount, into the District Treasury, on or before the 5th of the month following that for which the payment is due ; and interest at the rate of 6 per cent per annum shall be paid on all arrears left outstanding on that date. Such arrears shall, if they remain unpaid after the lapse of the month in which they are payable, be recoverable by attachment and sale of the property of the lessee in the manner prescribed by existing rules for the recovery of arrears of land revenue, and it shall be at the discretion of the Deputy Commissioner, with the Chief Commissioner's sanction, to declare the lease cancelled, and to resell or retain it under Government management and to recover all outstanding arrears with interest, and any losses which may result from such resale or disposal of the contract, by confiscation of the security deposited, and, if necessary, by attachment and sale of the property of the defaulter, under the rules in force for the recovery of arrears of land revenue.

II. The usual licenses to retail vendors will be issued by the Deputy Commissioner, and no alteration shall be made by the lessee in the locality or number of the retail shops now opened for sale of toddy, without the express sanction of the Deputy Commissioner. The Deputy Commissioner is competent to order any shops to be closed on grounds of public expediency.

III. Grain, goods, ornaments, wearing apparel or other property should not be received in barter or pawn for toddy.

IV. The lessee shall be required to conform to any additional rules which may be prescribed from time to time by the Chief Commissioner.

V. No interference shall be made by the lessee with the rights, as already ascertained and defined, of the holders of jodi, sarvamanyam and kayamgutta villages, who are authorized by the sannad, &c., to exercise such rights within the limits of their villages. Disputes regarding such rights will be decided by the Deputy Commissioner of the District, and the lessee shall be bound by such decision, which shall be subject however to the confirmation or otherwise, on appeal, of the Chief Commissioner.

VI. No toddy shops shall be opened before 6 A. M., and all shops shall be closed at 9 P. M., except when otherwise authorized by the Deputy Commissioner.

VII. All shops for the sale of toddy on or adjacent to the line of march shall be closed while a Regiment or Detachment of European soldiers is passing by, or during its temporary halt in the vicinity, and no compensation shall be claimable for loss alleged to have occurred or to have been occasioned thereby, and it shall be lawful for such troops to have their own abkari contractor.

VIII. The lessee will be allowed the use of the date trees growing on Government waste land for the extraction of toddy either for sale within the limits of his farm or for manufacture into jaggory, but he will have no claims to date trees situated in lands which are now or may hereafter be occupied for cultivation or for other purposes, nor to compensation on account of any date trees or topes, which the Government may, at any time, consider necessary to reserve for other purposes, or for the supply of toddy to other Districts. The manufacture of jaggory will be carried on only in such localities and under such conditions as the Deputy Commissioner may fix from time to time.

IX. The lessee will have no claims to compensation or remission on account of any arrangements which may be made by Government in regard to beer or other descriptions of liquor or spirit than toddy. The Chief Commissioner reserves to himself the power to terminate the lease as regards any parts of the District on public grounds, awarding a reasonable compensation for the same.

X. No toddy shall be knowingly sold or given to any European soldier, sailor, European or Eurasian woman or child, or to a sepoy or policeman when on duty, and any breach of this rule shall render the lessee or the vendor severally or jointly liable to the payment of a penalty of Rs. 50 for the first offence, and one hundred rupees for every subsequent offence, as well as for the cancelment of the vendor's license.

XI. The lessee shall be responsible that his servants or agents are prevented from extracting toddy from young immature date trees, the trunks of which are less than one yard in height from the ground to the springing of the branches, nor shall any leaves be cut and used by them except such as may have to be removed for the purpose of drawing toddy, and any breach of these rules shall render the lessee liable to the payment of a penalty of Rs. 50 for the first offence, and Rs. 100 for every subsequent offence.

XII. The rates at which toddy shall be sold to the public shall be as follows :—

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 3rd January 1881.

READ—

Letters from the Deputy Commissioner of the Shimoga District Nos. 381 and 460, dated 27th October and 25th December 1880, regarding the introduction of the arrack guarantee system.

Letter No. 446 of the 2nd December 1880 from the Deputy Commissioner of the Kadur District on the same subject.

No. 5624-31—R. 986, DATED BANGALORE, 3RD JANUARY 1881.

ORDER THEREON.—Notices having been issued to the distillers at Chikmagalur and Hariharpur, the separate Distilleries at these places may be closed on the 1st April 1881, when the guarantee system as provided for in Proceedings No. 5141-7—R. 901 of the 7th December 1880 will come into force. It is presumed that the Deputy Commissioners of Shimoga and Chitaldroog have given similar notices to the distillers in their Districts.

2. In the case of these contracts, it is not desirable to put them up to auction as proposed by the Deputy Commissioner of Shimoga. They should be disposed of by sealed tenders as provided for in the Proceedings of 7th December. The Deputy Commissioners of Shimoga, Kadur and Chitaldroog should at once submit revised draft advertisements in strict accordance with the form furnished with the above Proceedings for publication in the Gazette. The dates for the opening of tenders may be fixed for the 22nd February at Chitaldroog and Chikmagalur and the 25th February at Shimoga, in order to avoid interference with Census work, and to give sufficient time to intending tenderers.

3. It will be seen that the contractor will have no interest in the retail arrack shops, and he will not be called upon to pay anything towards the establishment charges. The retail shops will not be put up to auction as at present, but licenses will be granted for them at such rates of fees as may be fixed from time to time.

4. The contractor will not be allowed to sell to the retail vendors direct from the Distillery, but he will be required to maintain wholesale shops at the principal centres of the District for supply of liquor to retail vendors. The cost of carriage to such wholesale shops and expenses connected with the same will be taken by him into account in the terms offered by him.

5. The only point which remains to be settled is the price, wholesale and retail, to be fixed for the respective Districts, with reference to para 13 of the Proceedings of the 7th December. In the advertisement submitted by the Deputy Commissioner of Kadur, the prices are entered at 5 Rs. retail, the same as has been fixed for the Bangalore Cantonment, but Rs. 4-2-0 wholesale. The necessity for such a large margin in favor of the retail vendor is not apparent, as, by the terms of the contract, the contractor will be required to establish wholesale shops at convenient centres for the supply of the liquor to retail vendors. Moreover, it will be seen that for the Districts in the Nundydroog and Ashtagram Divisions, the wholesale and retail prices fixed are only Rs. 3-6-0 and Rs. 4-0-0 respectively. Having regard however to the greater cost of the manufacture at Chikmagalur and Shimoga, and to the high prices at which arrack is now actually sold to the consumers in those Districts, the wholesale and retail prices may be fixed at Rs. 4-6-4 and Rs. 5-0-0 for the Shimoga and Chikmagalur Towns, and at Rs. 3-14-0 and Rs. 4-8-0 for the rest of the above Districts. The Deputy Commissioner of Chitaldroog should, in submitting the draft advertisement, report what prices would be adapted to his District, stating the prices at which arrack is now actually sold to the consumers.

6. The following establishments are sanctioned for the supervision of the Distillery operations in the Shimoga and Kadur Districts, and will supersede the existing arrack establishments in those Districts from the 1st April 1881:—

		Per mensem. Pay.		Horse allowance.		Rs.
Supervisor	..	40	+	10	=	50
Dy. Supervisor	..	25	+	10	=	35
Mutsaddi	..	20				20
Tester	..	15				15
2 Peons at 6 Rs.	..	12				12
4 Peons at 5 Rs.	..	20				20
					Total Rs....	152 for each District.

7. Considering the great extent of the Districts, it is not to be expected that efficient check will be maintained by the supervision of a single Deputy Supervisor going about the Districts. The Amildars and their establishments should be enjoined to see that no malpractices are practised and that the liquor is sold by the retail vendors unadulterated and undiluted.

8. The Supervisor Raghunatha Rao at Ságar may be pensioned as proposed by the Deputy Commissioner.

9. The Deputy Commissioner of Chitaldroog should report the existing arrack establishment in his District and that proposed to be maintained hereafter. The small revenue derived from arrack in this District cannot admit of any considerable establishment.

10. Arrangements should be made for providing the necessary buildings for the Distillery at Government cost. Any private buildings of the distillers which may now exist within the Distillery enclosures should, if required by Government, be purchased at a fair valuation. Otherwise the distillers should be called upon to remove the same. The contractor should engage to pay such annual rent for the use of the Distillery buildings as may be fixed by the Deputy Commissioner, calculating at the rate of 6 per cent on the estimated value of the buildings.

11. Special care will be required to guard against any combination on the part of the present distillers who have hitherto charged unduly high prices on the consumers in comparison with the duty paid by them to Government. The advertisements should be given full publicity, and the terms of the new system should be clearly explained to all persons who may be desirous of offering for the contract. What they are required to offer for, it will be seen, are the rates of duty they are prepared to pay on the arrack issued for consumption in the District Head-quarter town and in the District respectively, and the minimum amount of annual rent which they engage to guarantee.

No. 5703-10—REV. 1013, DATED BANGALORE, 7TH JANUARY 1881.

ORDER THEREON.—Pattas for inam lands of temples resumed should be issued in the names of the recognized managers of such temples, or, where there are no managers other than the pujaris, in the names of such pujaris. They will be styled "the Pujaris" or "the Managers" to indicate that they hold the lands in trust for the temples and not in their own individual right, as they can have no claims whatever to the lands irrespective of the temples. If the temple has ceased to be kept up, or if no one comes forward to take up the lands in trust for the temple, the occupancy right of the lands may be sold if it has any material saleable value, otherwise the patta may be issued in the name of the cultivator of the land. If the cultivator holds the land in his own right, the inam tenure conveying simply a right to the Government assessment on the land, a question which must be determined by the evidence in each case, the cultivator and not the inamdar will be entitled to receive the patta on the resumption of the inam tenure.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 15th January 1881.

From the Inam, Survey and Settlement Commissioner of Mysore, To the Revenue Secretary to the Chief Commissioner of Mysore, No. 814, dated Poona, 29th September 1880.

I have the honor to forward a copy of directions given to the Superintendent of Survey regarding the procedure to be adopted in converting inams, in Taluks other than Malnad, confirmed by the Inam Department in denominations of ancient measures or valuation into modern areas and values, which directions are in general accordance with the principles already established. I have already had the opportunity of personally explaining these directions to the Chief Commissioner.

2. The mode of dealing with the inams in the Malnad Taluks was disposed of by the correspondence ending with Chief Commissioner's No. 8650—196 of the 8th January 1878: the procedure now referred to relates to inams not in the Malnad.

3. On the Superintendent, Revenue Survey, sending to the Deputy Commissioner of the Bangalore District a list made out in accordance with the above directions allocating the inams confirmed by the Inam Department and stating what lands were to be in future recorded as Inam and what as Government land, the Deputy Commissioner, then Major Maltby, by his letter * No. 282 of 26th May last, raised various objections which may be summarized as follows.

* Copy appended.

The first objection is that the entering excess lands as Government land and assessing them at the full Survey assessment seems opposed to the spirit of para 7 of the Chief Commissioner's order No. 937—34 of the 30th April 1879. The order referred to states that "there is no reason to deviate from the practice hitherto followed of confirming the whole of such (excess) land as inam charging the assessment of any unauthorized excess found on it as jodi; the only exception being in the case of recent and fraudulent appropriation of land, clearly the property of Government."

4. I of course observed the above statement in the Chief Commissioner's order at the time it was issued and that it stated as an existing practice, a practice which did not exist and which was in fact in direct opposition to existing orders. As it was no more than an ambiguous statement of existing practice and not a fresh order, I did not consider it worthwhile to make any farther reference upon it, especially as it did correctly describe the authorized practice in regard to survey numbers found to be *part* Inam and *part* Government land, which was possibly solely in mind when para 7 was written.

5. By the existing orders on the subject of excesses as abstracted in paras 2 and 3 of Inam Precis 17 the last of which order is 431—38 of 18th April 1874, the net excess chargeable with full assessment is to "be treated as ordinary kandayam land." But in cases when a part of a Survey number is made inam and a part is excess, the excess will no tbe separately demarcated, but the assessment of it will be treated as a jodi on the whole Survey number, Inam and Government land combined, in accordance with Chief Commissioner's No. 937—34 of the 30th April last. Such excesses combined with Government land in one Survey number bearing assessment less than Rs. 10 would be treated as inam, and in cases of excess above Rs. 10 Survey assessment the excess would not be treated as inam but would pay full assessment as "Inam Kasar."

Para 9.
Para 10.

6. So much on the subject of the Deputy Commissioner's first objection.

7. The second objection made by the Deputy Commissioner is that "the average excess which is found to exist in the adjoining Government land has not been allowed to the inamdars (Land Inam Rule XI)." I do not understand how the Deputy Commissioner came to raise this objection or how he could know how the excess had been calculated so as to enable him to raise the objection, as there was nothing whatever on the papers to shew how the excess had been arrived at.

8. But the objection is quite unfounded on any good base; it has not in fact, I find on enquiry, ever been the practice of the Inam Department to allow excess in proportion to the excess in the lands of whole village when the inam is confirmed as being of a definite area, in such cases a concession of 10 per cent of excess on the old recorded area is alone allowed, and this is a great concession. This practice is in entire accordance with the rule for the guidance of the procedure of the Inam Department contained in Inam Precis No. 15 based on an order of the Inam Commissioner No. 9 of the 9th June 1868. This order is perfectly correct in principle as explained in para 8 of the appended memo dealing with the procedure to be adopted in converting inam decisions into present areas and assessments.

9. The Deputy Commissioner of Bangalore, Major Maltby, directed the Amildar to place in abeyance the orders of the Superintendent of Survey regarding carrying the allocation of inams and excesses into execution pending the disposal of his objections. This appears to me to have been an extreme measure. No harm will occur in this instance as the orders can still take effect in the

current year, but mischief and loss may follow if this precedent should be followed by other Deputy Commissioners in the future.

10. I may here note that the system of converting inam decisions into modern equivalents complained of by the Deputy Commissioner of Shimoga and referred to in the 7th para of Chief Commissioner's order No. 937—34 of the 30th April last, was not precisely that in use by the Survey Department. It was found that in the Chanmagiri Taluk the Inam Department had made some considerable advance in the conversion and it was not considered expedient to make any change in the system commenced to be adopted in that taluk. This was explained by the Inam Superintendent and an example obtained from him which the Superintendent of Survey was directed to follow precisely; he did so according to his comprehension. After the objection had been raised by the Deputy Commissioner, on reference to the Inam Superintendent he stated that his meaning had been misapprehended. The case was quite exceptional and cannot possibly occur again.

11. I may add a few words on the impolicy of including excesses in the confirmed inam, subject to payment of the assessment as jodi. An idea exists that this will tend to the advantage of the revenue in that the sentiment connected with the possession of inam land will ensure its retention, when if made kandayam land it would be resigned. In the first place the State at present gets nothing whatever from these excesses, they escape the levy of assessment till they are brought under assessment as excess areas over the original grant; if three-fourths were resigned, the State would still be a clear gainer by the amount of the revenue of the other fourth.

12. These excesses are often very considerable in area. If confirmed even on full assessment the extent of the inams would be greatly added to and the assessment being jodi the land in question would be permanently settled and be beyond the scope of any future revision.

13. It is an error to suppose that anything whatever is gained by any measure tending to enforce the retention of inam lands even paying a jodi equal to the full assessment, and much more when the jodi is less than the full assessment. It introduces a very dangerous competition on the part of the inamdars with Government as to whose land shall be first taken into cultivation. The power of cultivation in a village is a fixed quantity at any given time and more than a certain area will not be cultivated at any one time. There is undoubtedly a certain sentiment about the possession of inam lands which would compensate for some present loss in holding them, the result of which is to give an example, that an inamdar would even retain an inam field the full survey assessment being say Rs. 12 and pay Rs. 10 jodi on it and for the time being accept Rs. 7 or 8 annually for it from a tenant. So long as inam land could be thus obtained for cultivation at less than the assessment of Government land so long would Government assessed waste land remain unoccupied to an equal extent. In addition to this present loss there is the prospective loss resulting from the inability to raise the revenue at a future revision if the land was declared inam.

14. It is therefore I believe the true policy to avail ourselves of all just opportunities of reducing the amount of inams and not on the contrary to facilitate the extension of inams by concessions not called for by strict justice.

15. These excesses are often of a very large extent; there is nothing to prevent a man holding an inam, truly of twenty acres, from shewing at the time of the survey the greater part of his adjacent kandayam land or fifty or more acres of adjacent Government waste as inam; he has only to arrange with Patel and Shanbhog, probably the latter only, that they shall make no objection and the Survey Measurer is bound to measure according to the boundaries shewn. No possession or right of any other private individual is interfered with, therefore no objection from that source is to be expected. If another ryot of the village did object on the ground that his land was being interfered with, then and then only would any enquiry regarding the true boundaries be made. The course here described is the only possible one to follow at the time of the survey and is in the end in no way to the detriment of the State as any excess in the value of the inam will be brought to account in the settlement of the inams.

16. I shall be obliged by an early decision on this reference, besides Bangalore the papers relating to excesses of inams in other talukas can be issued almost immediately and the revenue for the current year be secured. Till this reference is disposed of all must remain in abeyance.

Memo by Inam, Survey and Settlement Commissioner, dated Bangalore, 16th August 1879.

There are the following old accounts available in Mysore for dealing with the conversion of inams into present areas and values.

1. The ancient local or stal bijvari accounts which vary for different taluks and even for different villages in the same taluk but as a rule are uniform throughout one and the same village, the variation consists in a differing number of seers to the khandi.

2. The Krishnaraj bijvari khandi which is a khandi of 160 seers and into which it appears that all local or stal khandis of varying seers were ordered to be converted by Divan Púrnaiya.

3. Both the above accounts are pure bijvari, they have no connection whatever with area, but give units of value only, a single unit in one and the same village bearing the same rate of old assessment. All these bijvari accounts are justly dealt with on the proportionate system, that is $\frac{1}{10}$ of the bijvari valuation plus 10 per cent is equal to $\frac{1}{10}$ of the survey valuation of the same village, with a similar marginal addition of 10 per cent, to meet any imperfection in the mode of calculation.

4. The Krishnaraj paimayish khandi, which is a measure of pure area deduced from actual measurement in the survey conducted under Púrnaiya's orders, a considerable portion of the Province was thus measured and the inams so recorded.

5. All inams found recorded in any of the above modes can be disposed of without doubt or difficulty.

6, In many cases it is found that the Krishnaraj bijvari khandi has been converted in the accounts into what is called the "Krishnaraj paimayish" or area khandi by the arbitrary assumption that each bijvari kudu or $\frac{1}{20}$ of a khandi is equal to 3,200 square yards in dry and 500 square yards in wet land. The authority for this conversion is unknown, but be it what it may be it is clear that a khandi of *value* or bijvari, which always bears the same rate of assessment in one and the same village on the same description of land wet or dry (the area of land therefore varying with the quality) cannot possibly be converted into a uniform *area* the assessment of which must vary with the quality of the land.

7. In dealing with bijvari valuation it comes to precisely the same thing whether we deal proportionately with a unit of the bijvari, or with the ancient a sessment of the same, as one is equivalent to the other; for instance suppose that a village contained by old accounts 17 khandis each assessed at Rs. 10, and an inam of 1 khandi had to be dealt with, that one khandi (or Rs. 10 the ancient assessment thereof) would be equivalent to $\frac{1}{17}$ of he village assessment in the old accounts and would be similarly recognized in the present valuation, and in event of that village now bearing survey assessment Rs. 340, each khandi equivalent to Rs. 10, old assessment would be now considered equivalent to Rs. 20, survey assessment to which 10 per cent or Rs. 2 would be added.

8. Where the inam is recorded by Púrnaiya's paimayish as of a certain number of square yards from actual measurement, that number of square yards should be confirmed plus 10 per cent to cover any imperfections in measurement. In this case to give also the proportionate increase in the area of the village would be out of place for, though we may assume that the area of lands of value was in the old survey determined with some accuracy, it is not probable that the area of barren lands, hills, jungles, &c., was determined by other than a rough estimate if at all, for there would be no visible object in determing the area of such valueless lands in a survey like that of Púrnaiya, which therefore can hardly have any correctness attached to it in total area, though it may in lands of value. Moreover the 10 per cent addition is allowed for the purpose of covering all imperfections in the old measurement.

9. In proceeding with the conversion, the conversion into proportionate values on the base of para 2 and into similar areas on the base of para 4 will dispose of the large majority of cases and no more just modes can be found; they are in fact fully and precisely just. In the Inam Department it was apparently in some cases the practice to adopt the areas deduced arbitrarily as shewn in para 6 above; this is clearly and necessarily an unjust mode of conversion, in one case unjust to the State and in another equally unjust to the inamdar, by pure accident only can it be just to both. What has been finally done should not be undone, but as regards future proceedings such an erroneous mode of working should be avoided.

10. Some cases may remain which neither of the above modes will precisely deal with, namely those in which different bijvari valuations occur in one and the same village, the precise form of difficulty, it is hardly possible to anticipate such cases must be dealt with as they best can making certain in such exceptional cases that we are rendering full justice to the inamdar though it may be very doubtful if it is not at the expense of justice to the State; such cases though they may undoubtedly occur should be rare, and if they cannot be dealt with on any literal rule can always be dealt with on the spirit of the rules.

11. The shist inams of the Malnad and their mode of settlement have been already disposed of by special order after full enquiry and discussion.

Chief Commissioner's Proceedings of the 30th April 1879, No. 937—34, regarding the allocation of inam lands in the Malnad and Maidan Taluks and the treatment of excesses found on the conversion of the old recorded areas into modern equivalents.

No. 6026-35—REV. 1053, DATED BANGALORE, 15TH JANUARY 1881.

ORDER THEREON.—The rules laid down in the Survey and Inam Commissioner's Memo dated 16th August 1879 for converting into acres the areas of inam lands entered in former accounts in Sthal and Krishnaraj bijvari measures and Krishnaraj paimayish areas respectively are sanctioned.

2. The Chief Commissioner concurs in the opinion expressed by Colonel Anderson in para 8 of the above letter as well as in para 8 of the memo that where an inam is recorded in the accounts as being of a definite area in accordance with Púrnaiya's paimayish, or other actual measurement, there is no occasion, in disposing of excess in areas, for making any other allowance than the authorized one of 10 per cent to cover imperfections in the former measurements. The rule for making an allowance equal to the average excess found in Government lands in the same village is strictly applicable only to cases in which the old areas are recorded in bijvari measures. Where the old areas were entered from actual measurement, the application of the above rule is not called for, nor is it feasible as in Púrnaiya's paimayish, the areas of uncultivated and barren lands must have been entered by estimate more than by actual measurement.

3. With reference to the mode of treating excesses beyond the authorized extent referred to in paras 3 to 6 and paras 11 to 15 of the Inam Commissioner's letter, the Chief Commissioner believes that the cases in which the excess exceeds 10 Rs. in assessment will not be numerous, and that the inamdars in general would prefer to have the excess lands in such cases separately demarcated as kandayam lands. The addition of these lands to the inams, charging their assessment as jodi, would be regarded by them as rather jeopardizing the security of their inams. The Chief Commissioner therefore considers it unnecessary to go into any discussion of the views expressed in the above paragraph of the Inam Commissioner's letter. The sanction already given for treating unauthorized excess in inams assessable with less than 10 Rs. contained in the same survey number as part of the inam, the assessment thereon being charged as jodi, would meet most of the cases. Where the excess exceeds 10 Rs. in assessment, it may be separated from the inam and treated as kandayam land.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 21st January 1881.

From the Survey and Settlement Commissioner of Mysore, To the Revenue Secretary to the Chief Commissioner of Mysore, No. 891, dated Poona, 27th October 1880.

In Rule 17 of the *Rules for the remuneration of village officers it is provided that when the assessment of the occupied area of the Government lands falls short of five-sixths of the assessment of the entire arable land, these five-sixths of the gross or entire assessment of the arable land shall be taken as the base on which to calculate the remuneration of the officiators. In Rule 16 it is provided that when the assessment of the occupied area exceeds five-sixths of the whole assessment of the arable area, the gross revenue will be taken as the basis of calculation.

* Published in the *Mysore Gazette* of 14th November 1874.

2. These rules were generally well adapted to the circumstances existing at the time they were made, but in the southern and central parts of Mysore they are not so applicable; there was always much Government assessed arable land there which was not occupied or likely to be till the population considerably increased, and since the decrease of population by the famine not only is the occupation of the previously existing waste indefinitely postponed but some considerable area in addition has gone out of occupation.

3. I have been instituting enquiries into this point and I find that in many taluks the village officers of which have still to have the permanent scale applied, Government land bearing full one-third of the total assessment is unoccupied waste. I would therefore propose, to meet the change in circumstances and to obviate uncalled for expenditure, to substitute for Rules 16 and 17 the following.

4. The assessment of the occupied Government land (plus 10 per cent of the assessment of the unoccupied assessed waste Government land but not thereby exceeding the gross assessment of the Government land of the village) in the year in which the settlement of remuneration of village officers is made, will be taken for the calculation of the remuneration of officiators. This rule will, I believe, fully meet every requirement and will effect a considerable saving of expenditure when it is not required without in any way touching that which is really called for.

5. The change proposed is not one of principle in any way, but merely one of detail to adapt the scheme to present circumstances not previously anticipated.

No. 6154-63—R. 1081, DATED BANGALORE, 21ST JANUARY 1881.

ORDER THEREON.—With reference to the falling off in cultivation and revenue which has taken place since the famine, it is proposed in the above to adopt the assessment of the occupied Government land plus 10 per cent of the assessment of the unoccupied assessed waste, as the basis upon which the remuneration of the Village Patels and Shanbhogs is to be fixed. The proposed rule in substitution for existing Rules XVI and XVII is approved.

2. The Chief Commissioner however remarks that the largest falling off in revenue has taken place in the Taluks of the Chitaldroog District in which the permanent remuneration of the village officers has already been fixed. In order to apply the substituted rule to the above taluks and re-arrange in them the village officers' remuneration accordingly, it may be necessary to introduce in Para XV after the words "once after 10 years" the words "or oftener if found necessary."

No. 6255-66—REV. 1097, DATED BANGALORE, 25TH JANUARY 1881.

ORDER THEREON.—The provision in Section 68 of the new Stamp Act I of 1879, providing for the punishment of persons who, not being licensed, sell or offer for sale any stamps, appears to have been newly and expressly introduced with the object of putting an end to the irregular practice of private persons selling stamps for which they may have no use. There can be no hardship in this, as Section 54 of the Act provides for the refund of the value of stamp papers for which the purchasers may not have immediate use. The limitation of six months placed on applications for the refund would be of no use if the purchasers were permitted to sell the stamps to others after that period.

2. As the aforesaid provision in Section 68 of the Act may not be generally known, criminal prosecutions need not be resorted to till a month from the date of this order, which will be duly published in the Gazette. The Deputy Commissioners should instruct the Amildars and all vendors of stamps to make the order generally known.

Letter No. 129 of the 23rd July 1880 from the Deputy Commissioner of the Túmkúr District, pointing out that having regard to the definition as given in Clause 10 of Section 3 of the words "duly stamped" used in Section 61, a person executing a document when a repealed Act was in force but not stamping it in accordance with that Act would be liable to prosecution under Section 61 of the new Act.

No. 6289-99—R. 1102, DATED BANGALORE, 25TH JANUARY 1881.

ORDER THEREON.—The Chief Commissioner concurs in the Deputy Commissioner's opinion that the participial form of the verbs used in Section 61 of the Stamp Act I of 1879, for denoting the offences therein made punishable, would embrace offences committed both prior and subsequent to the date of the Act. Proceedings dated 10th July 1880, No. 2067—R. 382, will be modified accordingly,

READ—

Letter No. 342 of the 8th January 1881 from the Deputy Commissioner of the Túmkúr District, submitting for approval a notification for the sale of the right to collect Kuranga or whet stones in the Taluks of the Túmkúr District.

No. 6300-7—R. 1103, DATED BANGALORE, 25TH JANUARY 1881.

ORDER THEREON.—As the kuranga or whet stones are found only in limited localities, there is no occasion for giving the contract for the entire District, involving needless interference with the cultivation of lands. The contract should be sold by public auction after due notice for any taluk in which the stones are known to exist, the acceptance of the highest offer being subject to confirmation by the Chief Commissioner. The amount of rent stipulated to be paid for the year should be paid by 2 or 3 instalments in advance to avoid any risk, unless adequate securities are given. The contract for the Goribidnur Taluk of the Kolar District for 4½ months was recently sold for Rs. 1,600 and the stipulations entered into are given in Proceedings, dated the 16th December 1880, No. 5359—943, a copy of which is herewith forwarded.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (General),—dated 1st January 1881.

CENSUS.

No. 5597-5606—MIS. 783, DATED BANGALORE, 1ST JANUARY 1881.

ORDER.—The following is the procedure to be observed in carrying out the Census.

2. The Enumerators should, after completing the Preliminary record of the population, hand over the Schedule Books to the Supervisors of the respective circles, not later than the 15th January. The Supervisor should go through each block as the Schedule Book is delivered to him and verify all the entries made in it, and not simply a percentage of them, and then take all the Schedule Books to the Taluk Office for examination before the 25th January. In those blocks in which the Supervisor arranges to be present with the Enumerators during the whole of their enumeration, a separate verification may not be required.

3. The examination to be made in the Taluk Cutcherry will be general. The entries of houses in the Schedule Books should be compared with Form C, and the entries in the several columns should be glanced over to see that they are generally correct. If there are any inaccuracies, the same should be noted and pointed out to the Supervisors for correction. Where there are not sufficient spare pages in the Schedule Books for the additional entries required at the Final Census, the necessary additional forms should be stitched to the books, and the books should all be returned through the Supervisors to the respective Enumerators not later than the 5th February, and the acknowledgments of the Enumerators for their receipt should be obtained and recorded at the Taluk Office.

4. The Amildar of each Taluk and any other responsible Taluk officials available should visit all the villages of the taluk during the course of the Preliminary Census, and see that the arrangements for the enumeration and supervision by the Supervisors are properly conducted, and they should personally examine and verify the entries in some of the villages in each circle. After the Schedule Books are returned from the Taluk Office to the Enumerators, the Amildar should again go over all the villages to see that the Supervisors and Enumerators are at their posts and that all the arrangements are complete and ready for the Final Census.

5. On the night of the Final Census, the Supervisors in each circle should visit as many villages in their circle as practicable, and personally see that the enumeration is properly conducted. The Amildar should do the same as regards the taluk generally, leaving the Census arrangements of the taluk kasba under the superintendence of the Taluk Sheristadar or other official who can be trusted to conduct the work properly and accurately. Special taluk officials may be deputed to assist in the enumeration in any of the more important villages.

6. The Enumerators should hand over the Schedule Books to their Supervisors on the 13th February. The Supervisor should, within the next 3 or 4 days, go with the Enumerators through all the alterations and additions made at the Final Census, and satisfy himself that they are all correct, and then deliver the books to the Taluk Cutcherry. The Amildar should himself examine the alterations and additions along with the Supervisors in some cases. The Schedule Books will then be examined in the Taluk Cutcherry and with the Forms C will be arranged according to the list of blocks and villages and forwarded to the District Office not later than the 1st March.

The Schedule Books will then be examined in the Taluk Cutcherry and with the Forms C will be arranged according to the list of blocks and villages and forwarded to the District Office not later than the 1st March.

7. The Deputy Commissioner and the Assistant Commissioner appointed for Census work and any other Assistant Commissioners available should visit all the taluks in their District during the course of the Census, and see that the work is properly conducted according to the instructions laid down, and should personally examine some of the entries in as many circles as practicable. The Assistant Commissioner in charge of the Treasury may generally be entrusted with the supervision of the Census in the District Head-quarter town.

8. The Amildars should be authorized to supply any vacancies among Enumerators and Supervisors and to make any other arrangements required for the taking of the Final Census on the night of the 17th February throughout the whole taluk, and regarding which there may not be sufficient time to refer to the District Office for orders. They should clearly understand that the Census throughout must be taken on one and the same night.

9. The tabulation by villages will in the first instance be made in the District Office under the immediate supervision of the Census Assistant Commissioner according to forms and instructions which will be separately issued hereafter. The tabulation should be made by four or five of the best Taluk Gumastas and Supervisors of each Taluk who should be sent for to the District Office for the purpose. The work need not occupy them more than a month.

No. 5565-74—MIS. 779, DATED BANGALORE, 1ST JANUARY 1881.

ORDER.—The Municipal President at Bangalore and the Vice President at Mysore are requested to draw the special attention of the Enumerators and Supervisors to Rules 6 and 21 of the Instructions which provide for the enumeration at their own houses of persons absent on duty but within the limits of the village or town Under these rules, servants not living with their masters, but simply sleeping in their houses on the night of the Census will not be enumerated in their master's houses, but will be treated as being present in their own houses in accordance with the entry made in the Preliminary record. Special care will be required on the part of the Enumerators in this matter as residents of one block are likely to be sleeping in the houses of their masters situated in another block. The Enumerators in the latter should exclude such persons from their enumeration after ascertaining from them that they have been enumerated in their own houses in the Preliminary record, while the Enumerators of the block in which the permanent residences of such persons are situated should treat them as being present in their houses after ascertaining that they are absent on duty within the town. To record such persons where they are actually found would necessitate considerable alterations of the Preliminary record.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (General),—dated 25th January 1881.

CENSUS.

No. 5712-21—Mis. 803, dated Bangalore, 7th January 1881.

Order.—The attention of the Deputy Commissioners of Districts and the Municipal President at Bangalore and the Vice-President at Mysore is drawn to the Notification of the Government of India published in the Local Gazette extending the Indian Census Act XIV of 1880 to this Province, and to the Notification published by the Local Government under the said Act. It will be seen that the last clause but one of Section 5 of the Act as modified by the Notification of the Government of India confers only on the Magistrates of Districts the powers therein mentioned in regard to calling upon the managers of institutions to perform the duties of a Census-Officer. But this defect as regards Bangalore is supplied by the provisions of the Local Municipal Regulations in regard to the taking of Census. In the town of Mysore the Vice-President, if in any rare cases he should have occasion to resort to the provisions of the above section, should apply to the Magistrate of the District on the subject.

CENSUS.

No. 6207-16—Mis. 874, dated Bangalore, 25th January 1881.

Order.—Eunuchs are to be entered as males, and prostitutes as unmarried, but if they return themselves as married no further question is to be asked about it.

2. Column 11 should not be left blank for infants and young children not yet under instruction. They should be entered as "Does not know."

3. It must be carefully borne in mind that the leprosy requiring to be entered in Column 12 is the eating leprosy. This and the other diseases requiring to be noted in this column being readily ascertainable, the Enumerators should not make any annoying enquiry on the subject.

4. The point in regard to which perfect accuracy is not attainable is the age. This information is however very important for statistical purposes. The Deputy Commissioners should at once arrange for the preliminary returns of a number of large villages in the several taluks being examined and verified throughout by responsible officers in regard to the column of age, and the villages in question and the officers by whom they were so examined should eventually be reported to this Office. There may be some difficulty in ascertaining the exact age of adults amongst the rural classes who keep no record of their birth, but the ages of children can with facility be precisely ascertained. The Chief Commissioner trusts that a correct record on this point may be secured in the villages specially examined as above.

READ—

Letter No. 478 of the 10th January 1881 from the Deputy Commissioner of the Shimoga District, requesting that orders may be issued to the Executive Engineer, Shimoga Division, to pay, out of any sums due to petty contractor Halappa from the D. P. W., Rs. 209—3—10 payable by him on account of the wax and gall-nut contracts of the Sagar Taluk.

No. 6267-75—MIS. 876, DATED BANGALORE, 25TH JANUARY 1881.

ORDER THEREON.—In the absence of express rules on the subject, it cannot be legal or desirable to extend the Revenue Officers' power of attachment for arrears of revenue to movable property other than that in the possession of the defaulter which can be attached by seizure. In regard to debt claims and similar property not in the possession of the defaulter, separate rules for their attachment such as those laid down in Section 268 of the Civil Procedure Code are not provided for in the Rules relating to revenue arrears. They cannot therefore be attached by Revenue Officers on account of arrears of revenue. Government Officers of all Departments are however bound to render every assistance in the recovery of arrears due to Government, and they will be justified in withholding the payment of any money due to defaulters which may be in their hands.

2. In the case under notice, the defaulter appears to be a petty contractor working almost for wages, and as the Executive Engineer apprehends difficulties in getting the work done if the remuneration due to the contractor were withheld, the Chief Commissioner will not require him to withhold the money due to the contractor; but the contractor should be informed that he will not be given any future Government contract if he does not arrange for the payment of the revenue due to Government.

3. The Chief Commissioner must however remark that there could have been no occasion for such help from other Departments in the recovery of the revenue if arrangements had been made with the contractor for the payment of the instalments in advance, and for his furnishing adequate security.

Annual Report on Education in Mysore for 1879—80.

No. 6122—EDL. 100, DATED BANGALORE, 20TH JANUARY 1881.

ORDER THEREON.—The several points referred to having been separately disposed of, the above report is recorded.

C. RANGACHARLU,

To—The Director of Public Instruction in Mysore.

READ—
Letter No. 5059 of the 19th January 1881 from the Director of Public Instruction in Mysore.

No. 6308-16—EDL. 106, DATED BANGALORE, 25TH JANUARY 1881.

ORDER THEREON.—The Chief Commissioner is of opinion that English education solely at Government cost should be confined to the schools now established at District Head-quarters, and that its extension to taluk stations should be subject to the following conditions.

2. Classes for English instruction will be added to the Vernacular schools at such stations only at the instance of the Municipalities concerned, who must undertake to bear the entire cost of the additional establishment required, partly by contribution from Municipal Funds and partly from fees. The fees may be fixed by them at such rates as they may consider adequate. The fees and expenditure connected with the English class should be kept distinct, and accounted for to the Municipality separately from the rest of the school. The school fee receipts from the Vernacular classes will, from the 1st April next, be credited to the Local Funds which bear the charges. The arrangements regarding the English class in each case may be settled by the Deputy Commissioner in communication with the Director.

3. Building expenditure connected with Taluk schools, Vernacular as well as English, should be borne in equal parts by the Municipality and the Local Funds. The only expenditure which the Government will in future bear in respect of these schools will be the cost of direction and inspection.

4. Arrangements can be hereafter made for treating the service of English masters appointed for Taluk schools as Government service, as this will greatly add to the value of the appointments and facilitate the change of these masters from Taluk to District schools and *vice versa*.

5. The system of scholarships proposed cannot be satisfactorily worked by the Municipalities. Promising boys from Taluk schools can be admitted free in the District schools.

6. The Chief Commissioner will not insist upon the immediate withdrawal of Government expenditure in connection with the five existing Taluk Anglo-Vernacular schools, but detailed proposals should be submitted for reducing their establishments and, in communication with the Deputy Commissioners concerned, for early transferring the cost to the respective Municipalities. The recent transfer of a moiety of the mohatarfa collections to these Municipalities ought to enable them to bear the additional expenditure except perhaps in the case of Saklespur.

READ—

Letter from the Director of Public Instruction, No. 4904, dated 5th January 1881, submitting a letter in original, with his own observations, from the Surgeon, Mysore Commission, regarding the Local Medical School at Bangalore.

No. 6245-54—EDL. 105, DATED BANGALORE, 25TH JANUARY 1881.

ORDER THEREON.—The object of the Medical School is not simply to train up a certain number of Medical Subordinates for Government employment, but to throw open medical instruction to the public at large, leaving the selection for Government service to be made out of passed candidates as required from time to time, but not pledging the Government to any guarantees in respect to appointments.

2. The school will be under the control and supervision of the Surgeon to the Commission, or of any other senior Medical Officer who may be appointed. This officer will regulate the course of instruction, make periodical inspections, direct the examinations and exercise such other control over the conduct of the masters and the pupils as may be required, whilst the financial control of the school will vest in the Director of Public Instruction, through whom the periodical progress reports should also be submitted.

3. There should be no needless restriction on the admissions to the school. The students sent to the school on scholarships from the Local Funds of the several Districts will be selected by the respective Deputy Commissioners from the local schools with reference to their educational attainments, character and general promise. The Deputy Commissioners have been directed to consult the local Medical Officers with regard to the physical fitness of the candidates selected before sending them up to the school. Formal medical certificates of fitness would only be requisite in case of contemplated appointment to the public service.

4. In regard to the admission of other paying and free students, the certificates of the Head Masters of the schools from which they come as to their educational attainments and general character will suffice, but the total number of admissions in each year will require to be restricted to the number, say 20 or 24, which the school can accommodate. A minimum age, say 17 or 18, may also be prescribed. Students who shew no aptitude for medical study or whose conduct and character are unsatisfactory may, of course, be sent out of the school at any time by the supervising Medical Officer on a report from the Head Master.

5. Having regard to the object of the school, it is not desirable to insist on the rule that the students should, before admission, serve 9 months or a year in a hospital, as any such restriction might deter the superior classes whom it is desirable to attract from taking advantage of the school; but it is hoped that arrangements may be made for the students attending, in the 1st year of their course, one of the hospitals in Bangalore, for a certain time out of school hours. And as higher educational qualifications are required of them than was the case hitherto with the medical pupils, they ought to be able to complete the course required for Civil Apothecaries in three years' time. No special knowledge of the vernaculars other than what is embraced in their ordinary school studies need be required.

6. It will, of course, be desirable to withdraw the Mysore medical students now studying in Madras in the 1st year of their course and send them to the Local School. The arrangements to be made on the subject should be separately reported by Dr. Houston.

7. The Chief Commissioner concurs in Dr. Houston's opinion that the curriculum of studies should correspond as nearly as practicable to that prescribed for Civil Apothecaries in the Madras Medical School, and that, if possible, arrangements should be made for the students being admitted to the examination in the Madras Medical School to pass their final test. The Chief Commissioner would, however, desire that the school should commence at once as soon as practicable, the period of the sessions for the present year being altered to suit the purpose.

Proceedings of the Chief Commissioner of Mysore, in the Revenue Department, (Educational),—dated 25th January 1881.

8. The proposal to utilize the Police Hospital for the school is approved, and the Director should at once arrange with the Public Works Department for any repairs required and also provide the necessary furniture.

9. No Assistant of the higher grades will be necessary in the 1st year: a qualified and intelligent Hospital Assistant will suffice. In the 2nd year, when a fresh batch of students is admitted, an Assistant of the superior grades may probably be required in addition to utilizing the services of Apothecaries in charge of Hospitals for special subjects.

10. The Surgeon to the Commission and the Director are requested to arrange all the necessary details with Mr. Choksi to start the school at once. The arrangements for giving instruction in Chemistry and Physiology to general students may be deferred till the Medical School can be brought into fair working order.

11. The success of a new institution of the kind under notice must greatly depend on the zeal and devotion of the Head Master and the personal interest taken by him in the individual progress of the pupils, and the Chief Commissioner trusts that Mr. Choksi will spare no pains to ensure good results.

12. The Chief Commissioner desires to remark that the local Medical School and the system of scholarships for higher medical education were not devised with the direct object of providing for the immediate requirements of the medical service in the Province, which for the present must be met from sources outside. It is clear that a long time must elapse before the pupils educated under this system will be available for service. Mr. Gordon's object was rather to meet and encourage the growing desire for medical education among the people of the Province, and he hopes that in course of time the medical branch of instruction will be as widespread here as elsewhere, so as to afford a large field for selection for any requirements of the public service.

13. In conclusion it may be observed that complete freedom is given to scholarship-holders to prosecute their studies in the Madras or Bombay Medical College.

GENERAL.

Proceedings of the Chief Commissioner of Coorg, General Department, 3rd January 1881.

READ—

Again letter No. 538—129, dated the 25th September 1880, from the Superintendent of Coorg submitting the Budget Estimates of the Civil Dispensaries for 1881—82.

Letter No. 645—172, dated 3rd November 1880, explaining the figures in the actuals for 1879—80.

Letter No. 722—204, dated 8th December 1880, submitting further explanation and regular estimates for 1880—81.

No. 1236—GENL. 176, DATED BANGALORE, 3rd JANUARY 1881.

ORDER THEREON.—The year opens with a probable balance of Rs. 800 in favor fo the Dispensary Funds and the receipts of the year are estimated by the Superintendent at Rs. 10,105 as follows :—

	Rs.
Interest	195
Sale of medicines	1,000
Voluntary contributions	1,500
Imperial grant	1,110
Grant-in-aid from Municipal and District Funds—	
For current expenses	2,300
For buildings	4,000
Total Rs ...	10,105

2. The amount invested and the rate of interest therefrom should have been shewn in the "Remarks column" of the budget instead of shewing simply the amount of interest as has been done, and the attention of the Superintendent is drawn to para 3 of Chief Commissioner's Proceedings No. 1305—103, dated 22nd March last, containing explicit orders on the subject.

3. The amounts estimated from "Voluntary contributions" and "Sale of medicines" are raised from Rs. 1,500 and 1,000 to Rs. 1,800 and 1,100 respectively, the increases being warranted by the regular estimates of the current official year. The Chief Commissioner regrets to observe from para 2 of the last letter mentioned above that the residents of Mercara and Virajendrapet who during the late famine became contributors to the Dispensary Funds, are now withdrawing their subscriptions, and Mr. Gordon urges upon the Dispensary Committee the necessity of using their best endeavours to prevent this retrograde movement, and if possible to increase the subscriptions by stimulating private liberality.

4. The sum of Rs. 1,110 entered as "Imperial grant" is the amount of contribution from the "Imperial Funds" and provided for in the general budget of the Province for the Mercara Dispensary establishment which consists of 1 Hospital Assistant at Rs. 60 and 7 servants at Rs. 32—8—0 per mensem. But as the pay, *viz.*, Rs. 40 per mensem, of the Hospital Assistant attached to the Virajendrapet Dispensary is also paid from the same funds, the amount of "Imperial grant" should have been properly shewn as Rs. 1,590 and not Rs. 1,110.

5. Considering the present financial embarrassment of the Mercara Municipality the Chief Commissioner cannot sanction a contribution of more than Rs. 300 from it for current expenses, and this will be supplemented by a contribution of Rs. 150 from each of the three minor Municipalities, as it is but fair that they should share some portion, at least, of the cost of the treatment of their sick who resort for relief to the Dispensary at Mercara. The contribution from the Virajendrapet Municipality is fixed at Rs. 400.

6. With the foregoing modifications the estimated receipts will stand at Rs. 10,386 as detailed below:—

		Rs.
(1)	Interest	195
(2)	Sale of medicine..	1,100
(3)	Voluntary contributions	1,800
(4)	Imperial grant	1,590
(5)	Sundry receipts	151
(6)	Contributions from Municipal and District Funds	
	For Current expenses	1,650
	For buildings	4,000
	Total Rs....	10,486

7. *Charges.*—The charges of the year are estimated by the Superintendent at Rs. 10,256 as follows:—

	Rs.
Hospital Assistants	720
Establishment	1,086
Diet of patients	2,000
Miscellaneous contingencies	800
Cost of medicine	1,500
Public Works.	
Original works	4,000
Repairs	150
Total Rs....	10,256

8. Two Hospital Assistants are employed in the Civil Dispensaries, whereas provision for only one is shewn in the budget. The pay of the Virajendrapet Hospital Assistant which is paid from the Imperial Funds should also have been shewn under head "Hospital Assistants." This would raise the amount under that head from Rs. 720 to Rs. 1,200. The establishment last sanctioned in Home, Revenue and Agricultural Department No. 193, dated 19th April last, for the Mercara and Virajendrapet Dispensaries excluding the two Hospital Assistants is as follows:—

Mercara.

8 Servants at Rs. 63—8—0 per mensem per annum 63—8—0 × 12 = 762

Virajendrapet.

4 Servants at Rs. 27 per mensem per annum 27 × 12 = ..	.. 324
Total Servants....	1,086
Add to this pay of 2 Hospital Assistants at Rs. 60 and 40 = 100 × 12 =	1,200
Total Establishment....	2,286
Deduct the Contribution from Imperial Funds	1,590
	696

This excess cost over the amount contributed by the "Imperial Funds" and any increase to the establishment that may hereafter be sanctioned will be met entirely from the Dispensary Funds.

9. The sum of Rs. 2,000 provided for "Diet of patients" is reduced to Rs. 1,600, the regular estimate for the current official year being Rs. 1,577—12—8.

10. The estimated charges for the year will stand at Rs. 10,336 as follows:—

	Rs.
Hospital Assistants	1,200
Establishment	1,086
Diet of patients	1,600
Miscellaneous contingencies	800
Cost of medicine	1,500

Public Works.

Original	4,000
Repairs	150
Total Rs....	10,336

11. At the above rate of expenditure there will be a probable balance of Rs. 950 in favor of the funds on 31st March 1882.

4. The sum of Rs. 1,110 entered as " Imperial grant" is the amount of contribution from the " Imperial Funds" and provided for in the general budget of the Province for the Mercara Dispensary establishment which consists of 1 Hospital Assistant at Rs. 60 and 7 servants at Rs. 32—8—0 per mensem. Proceedings of the Chief Commissioner of Coorg, General Department, 3rd January 1881.

READ—

Letters No. 551-52—133-4, dated the 29th September 1880, and No. 648—173, dated 4th November 1880, from the Superintendent of Coorg submitting the Budget Estimates of the Municipalities for 1881—82.

No. 1237—GENL. 177, DATED BANGALORE, 3RD JANUARY 1881.

ORDER THEREON.—The estimated receipts amount to Rs. 13,805 which with the cash balance in hand of Rs. 13,916 make the sum of Rs. 27,721 available for working during the year.

2. The details of the estimated receipts are as follows:—

Municipalities	Octroi.	House Tax.	Tax on Carriages and Horses.	Tax on Professions.	Rent from Shops.	Fines.	Pounds.	Miscellaneous.	Interest.	Total.	Opening Balance.
Mercara ...	...	2,400	...	1,500	...	50	300	600	15	4,865	1,964
Virarajendrapet ...	2,800	...	200	3,200	500	80	40	100	50	6,970	9,926
Fraserpet ...	...	...	...	250	...	20	220	150	...	640	621
Somavarpet ...	...	...	...	380	...	10	120	220	...	730	824
Kodlipet ...	...	...	...	300	...	30	150	120	...	600	581
Total.....	2,800	2,400	200	5,630	500	190	830	1,190	65	13,805	13,916

3. The estimated income as compared with that of the previous year which was Rs. 13,035 shews an increase of Rs. 770. This is chiefly due to the inclusion for the first time in the budget of Rs. 500 being the amount estimated from the rental of the Virarajendrapet new market.

4. *House Tax.*—The receipts under this head are estimated at Rs. 2,400 or Rs. 200 more than the estimate for the current official year. The increase is warranted by the actuals of 1879—80.

5. *Tax on Carriages and Horses, &c.*—The income from this source is entered at Rs. 200 against Rs. 100 of the previous year and is also based on the actuals.

6. *Miscellaneous.*—The actuals under this head in the Mercara Municipality for 1879—80 are Rs. 1,880—4—7 and the regular estimate for 1880—81 is Rs. 2,193—12—8; whereas the estimate for the year under review is entered at Rs. 600. This should be explained and meanwhile the estimate is raised to Rs. 2,000.

7. The estimated expenditure amounts to Rs. 22,446 and is detailed as follows:—

Municipalities.	Head Office.	Octroi.	Original Works.	Repairs.	Contribution to Dispensaries.	Conservancy.	Lighting.	Miscellaneous.	Total.
Mercara	240	...	1,500	500	600	3,228	480	200	6,748
Virarajendrapet	240	804	5,930	2,000	600	1,500	800	200	12,074
Fraserpet	...	...	200	500	200	252	...	20	1,172
Somavarpet	...	...	720	200	200	252	...	18	1,390
Kodlipet	...	...	340	250	200	252	...	20	1,062
Total.....	480	804	8,690	3,450	1,800	5,484	1,280	458	22,446

8. The charge of the head office establishment is entered at Rs. 480 against Rs. 504 of the previous year; the decrease is due to the amount of Rs. 24 hitherto provided for as contribution towards the cost of the Municipal establishment of the

Chief Commissioner's Office being stopped in pursuance of Chief Commissioner's Proceedings No. 1340—177, dated 23rd March 1880.

9. A sum of Rs. 1,800 is provided for under head "Dispensary and Medical Charges." This is reduced to Rs. 1,150 as sanctioned in Chief Commissioner's Proceedings No. 1236—Genl. 176, dated 3rd January 1881, passing orders on the Dispensary Budget for 1881—82 and distributed as follows:—

				Rs.
Mercara	..	..	..	300
Virarajendrapet	..	..	..	400
Somavarpet	..	..	..	150
Kodlipet	..	..	..	150
Fraserpet	..	..	..	150
			Total...	1,150

10. From the subjoined statement it will be seen that the Mercara Municipality is not in a position to pay its own charges, the cash balance being almost entirely worked out:—

Opening Balance.	Receipts.	Total Income.	Charges.	Cash Balance.
Rs. 1,964.	4,865	Rs. 6,829	6,748	81

The Superintendent in order to raise funds suggests (1) that license from shops for the vend of European liquors be made over from the Imperial to Municipal Funds, retaining in the Revenue Department the power to grant or withhold licenses; (2) that a new tax of 2 annas per diem per cart halting in cart-stands within Municipal limits be imposed on carts. The income from licenses is estimated at Rs. 840 and from cart-stands at Rs. 500, or a total income of Rs. 1,340 from both sources is estimated.

11. The first suggestion is one of doubtful policy, for it would be a loss to the Imperial revenue to transfer to the Municipality the fees from licenses without any adequate return for the same. The fact of the Municipality paying a grant-in-aid towards the maintenance of the Dispensary establishment is not a sufficient reason to justify the Imperial Funds being made to give away a portion of their revenues for the benefit of the Municipality. Civil Dispensaries are institutions which should be maintained by Local Funds, whereas the Imperial Government very liberally contributes more than $\frac{3}{5}$ of the cost (Rs. 1,590 per annum) of maintaining the Dispensary establishment in Coorg. If the Municipality undertakes in return to maintain the Police of the town, it may be considered a reasonable compensation for the loss, but the cost of the Police is now entirely a charge against the Imperial revenues and the first suggestion of the Superintendent is therefore not approved.

12. The second suggestion is a feasible one and admissible under Section XXII of Act XVIII of 1864, but it is feared that the cart-men might on being taxed abandon the Municipal cart-stands and resort to private chatrams and thus frustrate the expectations of the Municipality. The Superintendent is requested to report if he apprehends any danger of this sort, if so how it would be obviated.

13. Under head IV receipts, "Tax on Carriages and Horses, &c" the income during 1879—80 in the Virarajendrapet Municipality amounted to Rs. 246—11—0. This taxation is not in force in Mercara and may now be introduced as well as "Tolls on Carts," &c., head V of receipts. Considering the greater importance of Mercara as the Head-quarter town of the District and the entrepôt of trade for the whole Province, the income from these sources may not be inconsiderable. The Superintendent is requested to report on this suggestion submitting a statement estimating the income at the rates in force in Virarajendrapet.

14. The provision made under Public Works and Repairs amounting to Rs. 12,140 detailed below is sanctioned :—
